

III edition of the Second level master in **Innovation in Cardiac Surgery: Advances in Minimally Invasive Therapeutics**

Course Directors: dr. M. Glauber, dr. M. Solinas, Prof. C. Passino

Time Commitment: June 2016 – December 2017 (18 months)

Activity: front lectures and workshops (400 hours); practice stages (250 hours)

University Credits: max 65 – Participants: max 15 – Submission deadline: April 15, 2016

Location: Scuola Superiore Sant'Anna – Pisa (Italy)

and Gabriele Monasterio Foundation – Pisa and Massa (Italy)

programme aims

The main objective of the Master consists in developing scientific and technical background in the different areas involved in the management of patients with heart disease who are candidates for minimally invasive cardiac surgery, through an interdisciplinary approach. The surgeons attending the Master will receive the key elements in order to assure their patients the best, less invasive, and up-to-date treatment.

teaching methodology

The Master course has a duration of 18 months and is organized over periods with distinct training objectives:

- a) theoretical and methodological, through traditional lectures and WEB based lessons and discussion of clinical cases;
- b) practical, aimed at developing technical skills, through residential surgical training programs in qualified international Institutions identified by the Master Scientific Committee

2016 – 2017 surgical sites are:

- 1) Fondazione G. Monasterio Regione Toscana – CNR, Massa, Italy
- 2) Clinica Sant'Ambrogio, San Donato Group, Milan, Italy
- 3) Department of Heart Surgery, Medical University, Innsbruck, Austria
- 4) Leipzig Heart Center, University of Leipzig, Leipzig, Germany
- 5) Heart and Vascular Clinic, Bad Neustadt, Germany
- 6) University Hospital Zürich, Division of Heart and Vascular Surgery, Zürich, Switzerland
- 7) Cardiovascular Center, Klinikum Nürnberg, Nürnberg, Germany
- 8) Department of Cardiac, Thoracic, Transplant and Vascular Surgery, Hannover Medical School, Hannover, Germany

is this programme for me? how to apply?
