Abbott

We create breakthrough products – in diagnostics, medical devices, nutrition and branded generic pharmaceuticals – that help you, your family and your community lead healthier lives, full of unlimited possibilities. Today, 114,000 of us are working to make a lasting impact on health in the more than 160 countries we serve.

AtriCure (T17 - T18)

AtriCure, Inc. provides innovative technologies for the treatment of Afib and related conditions. Afib affects more than 33 million people worldwide. Electrophysiologists and cardiothoracic surgeons around the globe use AtriCure technologies for the treatment of Afib and reduction of Afib related complications. AtriCure’s Isolator® Synergy™ Ablation System has been approved in the EU to treat atrial fibrillation since 2007. AtriCure’s AtriClip Left Atrial Appendage (LAA) Exclusion System products are the most widely sold LAA management devices worldwide, with more than 500,000 implanted to date.

Cardio Surgical (T22)

Cardio Surgical is committed to providing and distributing innovative high quality surgical devices for use in cardiac, thoracic, and vascular surgery, for general, minimally invasive and microsurgery.

Coreym (T16)

Corcym is a global, independent, medical device company entirely focused on state-of-the-art surgical solutions to fight structural heart disease. Corcym has a presence in more than 100 countries with approximately 850 employees and ensures strong continuous support to patients, healthcare professionals and healthcare systems worldwide.

Dr. Franz Köhler Chemie GmbeH (T03)

Dr. Franz Köhler Chemie GmbH is a family-owned and managed company with long history and experience since 1959, including a high sophisticated state-of-the-art GMP-production (capacity of more than 6.000 liters/day), own certified API production, own research and development center, numerous interdisciplinary joint projects with internationally renowned universities and hospitals, and a worldwide partners and distribution network. Our major brand, CUSTODIOL® (the original HTK Bretschneider solution), is a ready-to-use intracellular solution used by transplant and cardiac surgery centers in over 90 countries.

Fehling Surgical Instruments (T24)

Fehling Instruments is an internationally known and distinguished Medtech company. Continuously striving to improve function and economy of products has led to outstanding innovations in material and design. The introduction of ceramic technologies was a major step towards perfection of surgical instruments which are subject to abrasion.

Grena Ltd. (T19)

Grena Ltd, an innovator in medical devices, ensures superior patient safety and comfort in cardiothoracic care. Our signature innovations include Ne’x Glue Surgical Adhesive, 4Seal Hemostatic Powder, and Click’a V Plus polymer clips, as well as VClip titanium Clips designed to meet the highest medical standards.

Intuitive Surgical

Intuitive advances minimally invasive care by helping physicians and their teams optimize care delivery to support the best outcomes possible. For nearly three decades we’ve created products and services born of inspiration and intelligence—from robotic-assisted surgical and bronchoscopy systems to data generation that unlocks the potential to benefit care systems worldwide.

Medela (T27)

Medistim ASA (T10)

Medistim ASA is a global leader in intraoperative ultrasound technology, combining flow measurement (TTFM) and high-frequency imaging (HFUS) to improve outcomes in cardiac, vascular, and transplant surgery. As pioneers of TTFM, we empower surgeons to elevate patient outcomes through improved insight in every surgical procedure.

Peters Surgical (T12)

Founded in 1926, Peters Surgical is a French company present in over 90 countries. Today, it is a reference group for surgical practice throughout the world. With its expertise in the design, manufacture and distribution of medical devices, Peters Surgical has chosen to deploy French know-how in all around the world by setting up local support teams and manufacturing plants. Close to the surgical teams, Peters Surgical offers a range of dedicated services to improve surgical practices and provide the best possible care for patients. <https://peters-surgical.com/>

Scanlan International (T01)

The world’s finest surgical instruments have been designed and manufactured by the Scanlan Family since 1921. See our SCANLAN® Scanturian® MIS instruments, VATS instruments, and Legacy Needle Holders and Forceps.

SS Innovations International Inc. (T04 - T05)

SS Innovations is a cutting-edge medical technology company founded with the vision of making high-quality surgical healthcare affordable and accessible to everyone. Headquartered in India, SS Innovations focuses on developing advanced, affordable, and scalable surgical solutions that leverage robotics and artificial intelligence. With a mission to bridge the gap between innovation and accessibility, SS Innovations is transforming the healthcare landscape, particularly in underserved regions where access to advanced medical technology is limited.

Wexler Surgical (T20)

Wexler Surgical designs and manufactures a variety of titanium and stainless steel specialty surgical instruments and products for Cardiac, Vascular, Thoracic, and Micro Surgery. Come see our VATS/MICS instruments and ask about our Optimus Series.

Ziosoft (T25)

At Ziosoft, we strive to develop solutions with the best image quality to further enhance the clinician’s experience for accurate diagnosis and better therapeutic outcomes for patients. Ziosoft offers a whole body imaging platform for CT and MR, including cardiohoracic imaging supporting comprehensive surgical planning. To learn more, visit us at www.ziosoftinc.com.

Arthrex GmbH(T07)

We are a global medical device company and leader in new product development and medical education in orthopedics. With a corporate mission of Helping Surgeons Treat Their Patients Better, Arthrex has pioneered the field of arthroscopy and developed more than 14 000 innovative products and surgical procedures to advance minimally invasive orthopedics worldwide. Our product range comprises electronic equipment for arthroscopy, reconstruction instruments and implants for sports medicine and traumatology, joint prosthetics, and orthobiologic products. Arthrex continues to experience unprecedented growth and demand for our products throughout the world; however, we remain a privately held company with a family business culture that is committed to delivering uncompromising quality to the healthcare professionals who use our products and, ultimately, the millions of patients whose lives we impact.

Beijing Docsartist Technology Co.,. Ltd. (T23)

Docsartist APP, As a global cardiovascular specialty education platform, to present valuable educational videos from global cardiovascular experts. This platform provides an international medical education platform for cardiovascular doctors worldwide! Docsartist Media, A top-tier professional medical media planning team in China, focused on the professionalism and practical aspects of medical media, has planned the first academic variety show, "The Voive of China," along with our documentary series, promotional videos, and more. From planning and recording to production, we continuously refine and enhance our work, striving to create a comprehensive medical media service loop and aiming to become a unicorn in the niche field of medical media.

Delacroix Chevalier (T15)

Experience the difference to Optimize Access, Maximize Exposure and to Facilitate Precision with the Delacroix-Chevalier

Edwards Lifesciences (T29)

Edwards Lifesciences is a global leader in patient-focused medical innovations for structural heart disease, as well as critical care and surgical monitoring. Driven by a passion to help patients, the company collaborates with the world’s leading clinicians and researchers to address unmet healthcare needs, working to improve patient outcomes and enhance lives.

EnableCV (T13)

EnableCV is a wholly-owned subsidiary of Edwards Lifesciences. The mission of this highly focused organization is to bring continued innovation that enhances cardiovascular surgical procedures and techniques. enableCV’s product portfolio consists of devices that enable minimally invasive surgical approaches, as well as cannulae, all of which are used and respected by surgeons worldwide.

Geister Medizintechnik GmbH (T11)

Geister Medizintechnik GmbH, also known as Geister Medical, was founded in 1984 and is a manufacturer and system supplier of surgical instruments for conventional open and minimally invasive (keyhole) surgery with a focus on the areas of general surgery, cardiac, thoracic and vascular surgery, neuro and spine surgery as well as bone surgery and sterilization container systems.

IDOL HASTANE URUNLERI A.S (T14)

LSI Solutions (T06)

LSI SOLUTIONS® was founded in 1986 by our President & Chief Executive Officer, Jude S. Sauer, M.D., with a passion to focus on patient outcomes. What once started with a focus on laser tissue welding has evolved into a world renowned company dedicated to advancing minimally invasive therapeutics through research, development, manufacturing and marketing of proprietary products. <https://www.lsisolutions.com/>

Medinice (T21)

Medinice S.A. since 2012, has been developing new, innovative ideas for medical products and services. Company focuses on creating, developing and commercializing safe, minimally invasive medical technologies in the areas of cardiology and cardiac surgery. The company’s mission is to increase the quality of life of patients by means of solutions applicable in modern medicine. Medinice’s portfolio currently includes more than a dozen projects at various stages of development. All of the medical devices developed by Medinice improve patients’ lives and are widely used around the world.

Medtronic (T08 - T09)

Bold thinking. Bolder actions. We are Medtronic. We lead global healthcare technology and boldly attack the most challenging health problems facing humanity by searching out and finding solutions. Our Mission — to alleviate pain, restore health, and extend life — unites a global team of 90,000+ passionate people. Powered by our diverse knowledge, insatiable curiosity, and desire to help all those who need it, we deliver innovative technologies that transform the lives of two people every second, every hour, every day. Expect more from us as we empower insight-driven care, experiences that put people first, and better outcomes for our world. In everything we do, we are engineering the extraordinary.

Shanghai Xin Chang Memory Alloy Tech Co.,Ltd (T23A)

Founded in December 2000, Shanghai Xin Chang Memory Alloy Tech Co., Ltd. is one of the earliest enterprises engaged in the research, development and production of shape memory alloy orthopedic products in China. Since its establishment, the company has won many honors, including Shanghai A-level high-tech achievement transformation project.

USB Medical (T02)

Partnering with world-renown surgeons, USB Medical develops the highest quality devices offering you superior exposure and outcomes. Come see the new HV blades and G2 Detachable Clamp.

Zimmer Biomet (T26)

Zimmer Biomet is a global medical technology leader with a comprehensive portfolio designed to maximize mobility and improve health. We seamlessly transform the patient experience through our innovative products and suite of integrated digital and robotic technologies that leverage data, data analytics and artificial intelligence. With 90+ years of trusted leadership and proven expertise, Zimmer Biomet is positioned to deliver the highest quality solutions to patients and providers. Our legacy continues to come to life today through our progressive culture of evolution and innovation.
